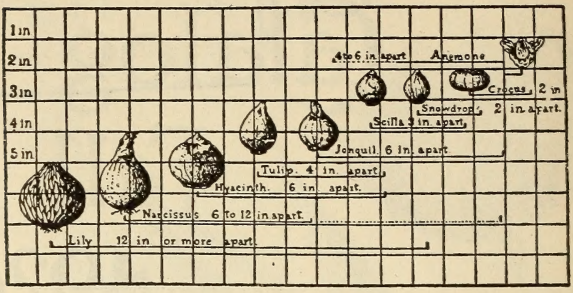
Bolgiano's Fall Bulbs



HOW TO PLANT

OUTDOOR CULTURE—Plant the bulbs as soon after September as possible to enable the roots to make good growth before the cold weather sets in. They can, however, be planted from September until the ground becomes frozen. They require a moderately rich soil, or else apply Bolgiano's Sheep Manure or Bone Meal. How far apart and how deep to plant the different bulbs is shown in the accompanying chart. When the ground freezes cover with 3 or 4 inches of leaves or dry litter. Rake off after frost.

INDOOR CULTURE—Plant hyacinths, tulips and narcissus in a sandy soil. Give a good soaking after planting and water once or twice a week during the time the bulb makes root. After planting keep in a dark place in the house and keep a paper bag over the pot until the sprout is about three inches long. They may then be brought to the light and bag removed.

GROWING PAPER WHITE NARCISSUS IN WATER—Place a dozen bulbs in a shallow bowl, cover with small stones and keep filled with water. Place a few small pieces of charcoal in the bottom of the bowl to keep the water from fouling. Keep in a moderately temperate room. They require no care, no attention. They keep on growing and produce a beautiful flowering plant in about six weeks.

THE HARDY PERENNIAL GARDEN

Year after year the hardy perennial garden is increasing in popularity. From early in April they continue to bloom with constant changing variety throughout the entire Summer and Fall. Once planted they appear themselves each year and do away with the necessity of annual seeding. Sown in late Summer or early Fall bloom next year. No garden is complete without a liberal space devoted to Hardy Perennials.

SWEET PEAS

Splendid results are often obtained from growing Sweet Peas in October or November. A perfectly drained soil so situated as not to be subject to too frequent or severe freezing should be selected, and the seed covered about three inches.

SUPERB EARLY OR CHRISTMAS FLOWERING SPENCER SWEET PEAS

These varieties are a welcome addition to our lists, for they flower several weeks earlier than the regular Spencers, and if planted with them you will have a much longer season of bloom.

BOLGIANO'S "CAPITOL PARK" LAWN GRASS SEED

Has Greatly Helped to Make Washington the City Beautiful Used in Seeding Many of the Handsome Lawns Surrounding the Government Buildings. It Never Fails to Give Satisfaction.

BOLGIANO'S "CAPITOL PARK" LAWN GRASS SEED, from yearly comparative trials, has proven to be unsurpassed for first-class and permanent results. This is due to the fact that we use only the very finest varieties of the most suitable grasses, thoroughly recleaned, free from all chaff and weed seeds.

BOLGIANO'S "CAPITOL PARK" LAWN GRASS SEED contains a well-balanced blend of various American and foreign fine bladed and deeply rooting grasses which has proved to produce the very best results under the varied conditions as to soil and climate met with in America.

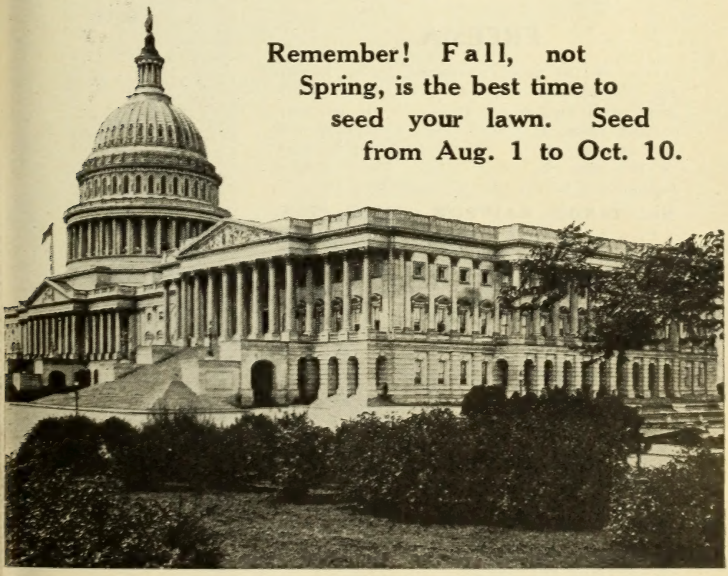
BOLGIANO'S "CAPITOL PARK" LAWN GRASS SEED will give a green, smooth, velvety sod with a thick bottom and free from such varieties of common grasses as produce clumps and knots on the lawn, which so frequently spoil the desired smooth and deep effect.

Pkt. 10c; lb. 40c; 10 lbs. $3.50; 100 lbs. $32.50.

BOLGIANO'S "SHADY NOOK" LAWN GRASS SEED

The Grass That Will Grow in Shady Places

More than twenty years of unremitting toil has been rewarded with success in the SHADY NOOK LAWN GRASS SEED. Not until the spring of 1905 did we succeed in accomplishing that for which we set out. Time and again we thought we had, but only to realize that failure was our portion. The SHADY SIDE of the STREET and under the OLD OAK TREE; in fact, everywhere that the sun does not strike more than a few minutes each day—those are the places that we want to make pretty for you. **Pkt. 10c; lb. 40c; 10 lbs. $3.50; 100 lbs. $32.50.**



Remember! Fall, not Spring, is the best time to seed your lawn. Seed from Aug. 1 to Oct. 10.
